

GROW 2011 Garden Railway Convention, Update # 2

Do not forget to mark the 12th and 13th of March 2011 as red-letter days in your calendar as this Convention is definitely not to be missed. We have a great program for the ladies this year too including a "self drive" visit to what's claimed to be the biggest shopping complex in New Zealand. Yes, even bigger than Silvia Park in Auckland. What's more, all the retailers are there along with a great range of "Outlet" shops.

Also on our list for "keeping the wives and lady friends happy" is a clinic especially from them being run by one of the club members partner. Tash is putting together a "Scrap booking" clinic which I daresay even some of us men-folk might be interested in. You will see from the Registration Form that there is a small cost associated with this clinic, Tash is putting together a great kit of parts and you will end up with something quite worthwhile at the end.

Another on our list of clinics is Stefan and Clyde demonstrating the lost art of Lost Wax Casting. Again, a very useful process for producing those special little parts needed in our scratch built models, and I believe there will be some useful contacts for obtaining the necessary materials on offer too.

We are definitely doing polo Shirts to celebrate this occasion; these will have our logo and words embroidered on them, in colour. We are really proud of these and hope we will see lots of them being worn at the convention and outings. Again, there is a cost involved (of course) and as long as we get the registration forms back in plenty of time then these shirts will be in your individual goodie bags on arrival at the venue!

So, keep the weekend of the 12th and 13th March '11 clear, get your registration forms in ASAP, and we will be seeing you all in 5 months!!
